## BATTLESHIP MAINE.

TRULY A FORMIDABLE ENGINE OF DESTRUCTION.

TEN YEARS ALMOST CONSUMED DURING HER CONSTRUCTION. HER TORPEDO TUBES PROTECT EVERY SIDE. COST TWO AND ONE HALF MILLION DOLLARS.

HIS VESSEL IS more formidable for war purposes than the cruisers which have been built to our new navy, on account of her strong defensive armor and the heavy guns she will carry. She was designed by the navy department and built at the Boston yards under a set of congress approved Aug. 3, 1886. Her armament was made by the Bethlehem steel works, and the long time taken in the construction is partly attributed to delay in receiving the armor plates. The vessel was launched Nov. 1890.

The Maine is built of steel throughout. Length over all, 324 feet 4½ inches; on load water line, 318 feet 3 inches; extreme beam, 37 feet; mean draught, 21 feet 6 inches; displacement, 6,682 tons. She has a protective belt of nickel-steel armor, 12 inches thick for a distance of 180 feet from bow to stern; outside, covering her machinery and vital parts. The bottom is double, with numerous subdivisions, and she has a protective deck of steel, 2 inches thick amidships and 4 inches thick on the sloping parts. She is designed for a speed of 15 knots, and her coal-carrying capacity is rated as sufficient for 7,000 knots steaming. The engines were built by Mr. N. F. Palmer, Jr. & Co., New York city, and are of the vertical, inverted, cylinders, triple-expansion type, the cylinder being 35½, 37 and 39 inches in diameter, and the stroke coming to 36 inches. There are two engines actuating twin three-blade screws, of a diameter of 15 feet each. At 132 revolutions the engines are designed to give about 9,000 indicated horse power. There are eight 12-inch boilers, each having 180 square feet of heating surface, and the steam pressure 300 pounds. There are eight 12-inch boilers, each having 180 square feet of heating surface, and the steam pressure 300 pounds. The pumps are of the Blake type, and they supply hydraulic power for a variety of uses.

The battery of the Maine is to consist of four 10 inch rifled guns mounted in two turrets, one forward on the starboard side, and one aft on the port side. These guns will be protected by the 12 inch armor of the turrets and by 8 inch shields. They each throw a projectile weighing 500 pounds. An auxiliary battery consists of ten 6 inch rifles in the battery deck, protected by 2 inch armor, and there is a secondary battery including four 6-pounder, eight 3-pounder, and two 1-pounder rapid fire guns, with four

revolving cannon and four Gatling

guns. There will be seven torpedo tubes, with range round the entire horizon. She will have a crew of about 350 officers and men, and her cost is placed at \$2,500,000.

### Remarkable Creeling.

The recent twenty-four hours elicited in a decisive victory for F. W. Shorland and the North Road club, who had been the most successful in 1891 and 1892. They secured the cup, which is valued at 100 guineas, outright. So great was the excitement aroused by the contest, that when the race started at 8 o'clock on Friday evening about 10,000 spectators were present, making about 6,000 persons remained on the Highgate Hill throughout the night. From the very commencement of the race Shorland rode at a great pace, breaking records from eleven to fifteen miles, an extraordinary thing to do in a long distance ride, and following this up by beating all previous English records from 101 miles to 120 miles. He reached his thirteenth hour to the finish of the race. His total was 460 miles 1,396 yards. At the conclusion of the race the crowd swarmed all over the track, and so great was the desire to get a sight of the winner, that it required the services of the police constables to escort him safely to his dressing tent. Shorland's only rest was one of nine minutes, when he had been riding about twelve hours.

### Trials of a Dynamite Gun.

One of the 12-inch dynamite guns was tested at Sandy Hook, Aug. 16. The gun is 50 feet long. After firing three dummies, two shells loaded with 300 pounds of high explosive were fired, the first at 1,800 feet, the second at 2,100 feet, directed to work at a pressure of 125 pounds. A slight noise like a whistle was the only sound made in firing. When the projectiles struck the water, a dash of spray was visible, a moment afterward the shell exploded, throwing up water and sand to the height of 10 feet. The explosion could be plainly felt on shore and on vessels in the vicinity. Sandy Hook is being provided with gun lifts and breech loading mortars, which in addition to the dynamites would make it well nigh impossible for hostile vessels to land. All ships provided that they must necessarily pass within three miles of Sandy Hook and therefore directly under the guns located at this point.

## NICHOLAS IS TIMID.

A NERVOUS SON OF THE HOUSE OF ROMANOFF.

ALL HIS LIFE HAS BEEN MARKED WITH TRAGEDIES. HIS MARRIAGE WITH THE PRINCESS ALEXIS OF HESSE TO ETHE ROYAL FAMILIES.

HE NAME OF Nicholas has always pertained to the house of Romanoff; and it would seem as though he had not escaped his sinistral significance. From a child he has been delicate and pale; and the quiet little fellow with his long, silvery hair and large, wistful eyes, contrived to win the sympathies of the sex. Women harness makers, tailors, commission merchants, crockery, shoe and cutlery dealers, funeral directors, managers of milk routes—all these are recorded with printers, lawyers, electricians, sculptors and druggists heads.

Visited Jefferson Davis in Prison.

Rev. Dr. Charles Foredeck Ernest Minnegerode, who died in Alexandria, last Saturday, was the most prominent Episcopal divine in the south. "He enjoyed," says the Washington News, "the acquaintance and friendship of most of the distinguished men of the time. He was appointed to the chair of ancient languages at the University and College of Richmond in 1865 and the ministry of the Protestant Episcopal church. After having charge of several parishes he was made rector of St. Paul's church in Richmond. He was filling this pastorate when the war broke out, and Jefferson Davis was a member of his church. It was during service in the church that he became president of the confederacy received the news of the fall of Richmond. When Mr. Davis was imprisoned at Fort Monroe, Dr. Minnegerode, by special permission of the secretary of war, was allowed to visit him fortnightly, and he remained with the friend of Gen. Lee and many other men whose names are connected with the confederacy. Falling health caused him five years ago to resign the rectorship of St. Paul's, and he removed to Alexandria. Several weeks ago he was stricken with paralysis, and since then he has failed steadily."

Old Fisherman—You didn't fish long this morning.

Old Fisherman—Innumerable—Shar-sharks out there.

Oh! Scared the fax, did they?"

"I—I didn't wait to see whether the fish were scared or not."

When Others Fail

Hood's Sampaguita builds up the shattered system by giving vigorous action to the digestive organs, creating an appetite and purifying the blood. It is prepared by modern methods, possesses the greatest curative powers, and has the most wonderful record of actual cures of any medicine in existence. Take only Hood's.

Hood's Pills are purely vegetable and do not purge, pain or gripe. 25c.

Even Democrats have something to be thankful for. It might have been worse.

The earthquake in Japan, Oct. 22, killed 482 persons and destroyed 2155 houses.

MISS MARY STEVENSON, the Vice-President's daughter, is critically ill at Asheville, N. C.

RUBENSTEIN, the great Russian pianist and composer, is dead at St. Petersburg. Aged 64 years.

COL. W. O. BRADLEY jumped from the steps of a moving train last week, and had a narrow escape from death. Same here, Billy. Shake!

FRANCH, the Spanish anarchist who threw a bomb into a Barcelona theatre and killed twenty people, a year ago, was garroted Wednesday.

GEN. WEY, who lost the battle at PingYang, has lost his head, by order of the Chinese Emperor. This is one of Wey of punishing cowardice.

THE Southern Magazine is in hard lines, and will probably consolidate with a Northern Magazine. The number is not yet out.

MRS. CUTHBERT BULLITT has gained some more notoriety by withdrawing her suit for divorce. They've made up.

EDITOR STAINS, of the Dover Searchlight, has become a sort of Golden Stairs, so to speak, by marrying a widow with \$100,000 in gold in her own name.

WHEN A WOMAN'S suffragist becomes an anarchist is explained as follows: Sweet Anna was, as many know, a woman suffragist. But when she got to be a bean, she was an Anna kisser.

—Paduan Standard.

It is understood that Mrs. Cleveland will be compelled to retire from society again this winter in anticipation of an interesting event that is expected to occur in March next. Several ladies of the diplomatic corps will be missed this winter for the same reason.

THAT scheme to have both Clay and Hardin withdraw in favor of McCrory for Governor, to insure harmony next year, has been nipped in the bud. Mr. McCrory declines to be considered in the deal and expresses the opinion that either of the present candidates can be elected by a large majority.

THE subject of Col. Breckinridge's lecture will be "Ten Years Among Tariff Reformers." If he means the ten years from 1884 to 1894, this attempt to prove an alibi comes too late. The public understands pretty well that much of Willie's time during the last ten years was not spent among "tariff reformers." Some of it was passed—but that's no matter now.

THE Covington Commonwealth is keeping tally of the papers opposed to the secret ballot. It may add the KENTUCKIAN to its list. It opposed the present constitution on account of the secret ballot provision, and it stands ready to do it all to obtain the repeal of the obnoxious clause. The old viva voce plan, open and manly, was good enough for us.

THE Courier-Journal has felt called upon to take a stand editorially to certain criticisms in the Owensboro Messenger, Paducah Dispatch and other State papers. Mr. Watterson for once finds himself on the defensive and forced to explain things that have appeared in his columns to the injury of the Democratic cause. There was a time when the country press blindly followed wherever the Courier-Journal led, but this is no longer the case. The rural roosters have found out that Mr. Watterson is just as prone to error as they are and have learned to do their own thinking. The Courier-Journal may begin now to prepare itself for a signal defeat if it expects to stifle free silver in the next State convention. Kentucky is not a goldbug state and the Courier-Journal will find itself almost alone in its opposition to silver.

PRAYERS FOR RAIN were offered in all of the churches of Dallas, Tex., Sunday.

Oh, my! Wouldn't those Mexican editor-eaters like to get hold of Jack Collier!

A Republican millionaire named Addicks, is after the seat in the senate now held by Higgins, of Delaware.

DR. CLARDY crowded Col. Hendricks for that "banner district" honor. Clardy's plurality was 3032 and Hendricks' 3118, only 86 greater.

Yale defeated Harvard by a score of 12 to 6 in the match game of foot ball Saturday. Many of the players were hurt, one of them very seriously.

TM Logan recently eaten by Mexican cannibals was not the Louisville editor. The hungry of cannibals would not dare tackle Emmett until he could be put through a fattening process.

R. E. ROBINSON, a newspaper correspondent, and Jas. Logan traveling with him, are said to have been eaten by cannibal Indians on an island off the coast of Mexico. If Robinson is a real newspaper man and had his check with him, some savages must have lost his front teeth during the meal.

WHO says the KENTUCKIAN is not a newspaper of "some importance?" By holding over some of our full-page advertisements until next week, we are barely able to get along with twelve pages this time. And still the holiday rush for space is just beginning.

IT is still a matter of doubt who has been elected governor of Tennessee. The Democrats claim to have discovered gross frauds in the Re-registered counties, where thousands of unregistered voters were allowed to vote in defiance of the State law. The legislature will count the vote, and if Evans was elected by fraud he will not be allowed to qualify.

MR. BAND and Miss Hoop eloped from Livingston county and were married the other day. With names like those, they were doubtless well fastened together.

DANGER FROM CATARRH.

The most important feature about that common complaint catarrh is that it is a disease of the blood, and comes on into some other more serious and dangerous disease. The foul matter dropping from the head into the bronchial tubes or lungs is very liable to lead to bronchitis or consumption, which destroys the lung tissue, and causes a greater than any other disease. As catarrh originates in impurities in the blood, local applications can do but little good. The common sense method of treatment is to purify the blood, and for this purpose there is no preparation superior to Goldenseal. The root of Goldenseal is a valuable medicine to the blood expels every impurity, and so doing cures catarrh and gives health to the entire organism.

## Child Burned to Death.

A two-year-old child of Mack Owen, living on Jesus Avenue, was so badly burned Saturday that it died of its injuries Sunday morning. The child was playing around the grate when the clothing caught on fire, and before assistance could be rendered it was horribly burned all over its body and died in great agony.

## Town Elections Held.

The election of town officers at Celina Springs resulted as follows: Police judge, Paul Turney; marshal, B. F. Lenesee; trustees: Drs. B. F. Felix, J. S. White, D. H. Armstrong, A. M. Walker and J. T. Mitchell. At Waltonia J. W. Buchanan was elected police judge, J. B. Jefferson master, and J. H. Glover, H. M. Gardner, C. J. Watkins, G. D. Pollard and B. Rascoe, town trustees.

## Memorial of Mrs. James M. Glass.

The ladies of the Ninth Street Presbyterian church, and especially of its Missionary Society, desire to place on record an expression of our affection for, and great sense of loss at the death of Mrs. James M. Glass. Her life has been passed before us. The daughter of a devoted Christian mother, she was in infancy baptized in the Presbyterian church, whose doctrines she loved and adored through a long Christian life.

Who that knew her doubted her deep devotion to the Master, to the cause and people?

She was faithful to every duty. In all her home life as friend, neighbor, and in loving service in the Sunday School, in her church societies she set forth the beauty of her Christian life. It is especially sad to the older ladies of the church to give up one whose counsel was ever just and true, whose companionship was comforting, whose beautiful hospitality was a blessing to all who came within her home. Let us emulate her example, closing up our ranks and following the blessed Master whom she so lovingly served, looking unto the crown and victory which now are hers.

Mrs. KATE HENRY, Mrs. ALEXANDER, Mrs. HICKMAN, Committee.

## DEATHS.

COLLEY.—Mr. Geo. Colley, of Canton, a young man about twenty-two years of age, died November 19, after a brief illness.

COLE.—Captain D. Armistead Cole, one of the oldest conductors on the L. &amp; N. system, died of rheumatism of the heart, at his home in Nashville, last Thursday night, after an illness of about two weeks. Capt. Cole was about 50 years old and had been in the L. &amp; N. service for more than twenty years. He conducted a passenger train on the St. Louis division for a number of years and was well and favorably known by the traveling public. He was held in the highest esteem by the railroad as well as by all who ever had the pleasure of his acquaintance. For the last two years he had been running between Nashville and Birmingham. The remains were taken to Franklin, Ky., for interment Friday.

BEALEY.—Mr. R. E. Bealey, the only son of Mr. Joseph Bealey, of Lafayette, died suddenly of heart failure Friday night. He was thirty-five years old and leaves a wife and two small children. Mrs. Bealey and children, who have been visiting relatives in Arkansas for several weeks, were telegraphed the sad news and are expected to arrive to-day, when the interment will take place at the family burying ground near Lafayette. Mr. W. N. Ducker, of this city, went down Saturday morning and embalmed the body.

James E. Kelly, a young sculptor, whose statues have given him a name, is a member of the Seneca tribe. His Indian cognomen is Genis-quay, meaning a pale face without a wife.

A manseum to the memory of the late Mrs. Charney Depew is being erected in Hillside cemetery, Peekskill. It is to cost \$20,000 and will be thirteen feet high, fifteen feet wide and twenty feet long.

Dr. Lillian C. Smith, a graduate of Wellesley, recently obtained first honors in a competitive examination for the post of resident physician of the Philadelphia hospital. She had eighty rivals.

John Jacob Astor recently purchased two pieces of property adjoining his home in New York for \$100,000. The houses on them said to be very handsome brownstone ones, are to be torn down to make a tennis court.

John W. Hutchinson, one of the famous family of singers to whom our fathers and grandfathers listened, is defeated in a suit brought by a widow aged forty-eight, who alleges breach of promise of marriage. Mr. Hutchinson, who is 74 years old, denies the charge.

In Trieste, an Englishman, Professor Jones, has suffered a severe loss through a strange mishap. He was reading a lecture on the book he had written, which his bookseller, who sat jumping upon the table covered with papers, threw over the petroleum lamp, and the efforts of the professor and his audience to extinguish the fire were of no avail. All the valuable books were destroyed.

The will of the late Dr. Charles Loring of Boston, which he never admitted to probate, sets aside nearly \$3,000,000 for a manual training school. One-third of her estate is given out-right for "the promotion of schools for manual training, industrial training, and teaching, leading to young people of both sexes in the state of California, and particularly in the city and county of San Francisco."

J. E. Winner, who years ago and merely as a diversion wrote the words and music of "Little Brown Jug," took out a patent on the copyright of the production, which sold for \$100,000, hundred thousands and realized a tidy sum for its author. Mr. Winner's brother, "Sep," is the composer of "The Mocking Bird," which made for him a small fortune. Curiously, the author of "The Jug," one of the most popular of drinking songs, always has been a total abstainer.

## GRAINS OF GOLD.

Good men are a public good. Human laws reach not thoughts. The more laws the more offenders. He who buys offices must sell justice. Law governs man, and reason the law.

Laws catch flies, but let hornets go free.

The mob hath many heads, but no brains.

Money is the abridgment of human power.

All man in office is a public calamity.

If you ever so high, the law is above you.

Rigid justice is oft the greatest injustice.

The trial is not fair where affection is judge.

The greater the man the greater the crime.

You pretend the public, but you never yourself.

A doubtful peace is more hurtful than open war.

Justice will not condemn, even the devil, wrongfully.

One's self-satisfaction is an untaxed kind of property which it is very unpleasant to find depreciated.

No one can count up the value of the labor which is both generous and conscientious. Even the money-value of one's self-satisfaction is nil.

It is too bad that poor wratch can be punished for simply your pocket handkerchief or gloves, and that no punishment can be inflicted on those who steal your time.

## MARRIAGE CUSTOMS.

In Java the bride washes the groom's feet as a token of subjection.

In Hungary at one time the groom gave the bride a kick during the wedding ceremony.

Horseback weddings, where groom and bride ride at full speed away from their pursuing attendants, are still sometimes seen in Tartary.

Among the Bororo head-hunters a young man, in offering marriage to a young woman, had to present her with the head of a man killed by himself.

Toursnefort says that among Greeks rustics of to-day the bride and groom ran the gauntlet of young folks of their acquaintance, who kick and cuff them as they pass.

A Roman bride was lifted by her husband at the threshold of his home and carried across it, probably to prevent her from running away.

During the great day when so many of the young Romans carried home brides.

Among the North American residents a wedding is sometimes preceded by what is called a "bachelor blow-out," at which much liquor is consumed by the groom expectant and his friends.

## SAVINGS AND DOINGS.

The most unique Sunday school in the world is the line of the Nashville, Chattanooga and St. Louis railroads, among the telegraphers. A lesson is used, and all the questions and answers are given by wire.

Enoch Pratt of Baltimore, who is in vigorous health at eighty-six and the active head of several large corporations, wanted to give Baltimore a library, and so has spent \$1,300,000 without troubling his heirs with the business.

David McCoy, who resides near Redlands, is probably the oldest voter in California. Mr. McCoy is 104 years of age and has lived under the administration of every president since the United States, from Washington to Cleveland and inclusive.

Patents are issued in Mexico to all persons who apply for them, when the necessary fee accompanies the application. The government does not inquire into the merit of the invention for which protection is asked nor is there any effort to learn of prior invention of the same device. The question of priority has to be fought out in the courts.

A full grown goat was quietly browsing on the shore of Star lake at Palmetto beach, Fla., when a large alligator, fully ten feet long, was suddenly upon it. The goat emerged from the reeds, and with one stroke of his ponderous jaw bite the goat in half. He disappeared for a few minutes and was then seen to rise again and take the other half of the animal that had been left in the shallows.

While a New York tenement house was abuzz, disease found a helpless mother and a babe three days old nearly suffocated in an upper floor. One man lowered a rope from the roof while another wrapped the babe in his coat, tied it up snugly and then sent it down to the room below. The woman, in unconscious condition, and protected by a woolen blanket, was carried safely down the fire escape through the flames and smoke.

## INCIDENTS AND IDEAS.

In Delaware there are 9,000 farms valued at \$37,000,000.

Two or three New York physicians make \$100,000 or over each annually. West Virginia has 15,000 square miles of coal fields, and produces annually 5,000,000 tons.

An imperial guard at Pekin, China, is drawn from the Banner army, consists of eight regiments.

Clouds that move in a direction opposite to that of the surface currents indicate a change of weather.

The Italian alphabet consists of twenty-two letters, similar to the English, omitting k, w, q and y.

It is said that there are only two million living in the world who have had their singular veins cut, and one of these lives in Chicago.

One of the most popular magazines receives an average of 9,000 articles a year from writers. About 400 articles only can be used. The others are rejected.

Business in Medford, Mass., is so completely covered with trumpet honeysuckle vines that a stranger would find it impossible to discover a door or window.

At the hygienic congress held in Budapest the fact was brought to light that stammering is far more common among men than among women, the proportion of male to female stammerers being almost four to one.

Stockholm is believed to be the largest telephone city in the world. According to the latest statistics, given out by the Stockholm general telephone company, Stockholm has at present 14,000 telephone lines, or about one to every eighteen inhabitants.

So penetrating is water at high pressure that only special qualities of cast iron will be tight against it. In the early days of the hydraulic jack it was an uncommon thing to see water issuing like fine needles through the joints, but the water pressure would penetrate the steel just as readily as a steel club.

## PROGRESS AND INVENTION.

Uncle Sam has \$18,500,000 horses and mules.

The value of the butter exportation from France averages nearly \$17,000,000 a year.

England has adopted the Bertillon system of minute anthropometric measurements for the identification of criminals. The Bertillon's finger print system, which Francis Galton has made generally known.

"Torpedo scissars," a new form of torpedo net cutter invented by a Danish naval officer, have proved successful. It is said, in recent tests, they are fixed to the head of the torpedo and fall apart in striking the net, cutting it so as to let the torpedo pass through and strike the ship.

A scheme to build a new railroad in Florida, for which money had been fully subscribed, has failed through

one man putting his name down for \$200, but when called on for the cash he demanded a \$100 free pass for him, free freight for his oranges, a spur to his grove, with a town site laid out on his land, and he had the proceeds of the sale of lots.

One of the ways in which the electric light is a benefit is that it lessens the breakage of street lamps, the bill for which amounts to thousands of dollars every year. The number of lamps broken in Boston during a period of ten years when the city was almost entirely lighted by gas and oil, amounted to 124,994, and a good proportion was broken simply through mischief.

WEATHER FORECASTS:  
A warm wave is due and with its  
advent we may expect rain and  
much stormy weather for a few days.  
This will be closely followed, as usual  
at this season, by sharp freezing  
which will likely last for several days.  
Considerable rain is promised within  
the next ten days.

PERSONAL COSSIP.

two weeks ago to lay in a second  
fall stock of clothing, shoes, etc.

Mr. F. A. Wells, of Era, Va., who  
has been visiting the family of Mr.  
W. S. Cheatum, near Longview, left  
for his home yesterday.

Mr. W. M. Girard left for Louis-  
ville Sunday, where he went to re-  
port to the L. & N. surgeons the con-  
dition of his leg, which was crushed  
a few weeks ago. He will be absent  
several days.

Miss Lillian Price has tendered her  
resignation to the Trustees of the  
public school, to take effect Decem-  
ber 1st. Miss Lillie is influenced in  
this action by a more desirable and  
lucrative position offered her in At-  
lanta, Ga., and she will depart for  
that city January 1st. Miss Lillie  
has been identified with the Hop-  
kinsville public schools a number of  
years, and many patrons of the  
school and others will regret her  
leaving this city.

Good coffee is a great blessing and  
a good coffee pot in the family is a  
joy forever. A representative of the

KENTUCKIAN has tested the merits of  
the self pouring coffee pot now being  
sold in this city and pronounces it a  
first class article. It makes coffee in  
the simplest sort of fashion and  
makes it as good as the best. It

is not only simple but economical and  
the self pouring feature is a great  
convenience to the lady who sits at  
the head of the table.

The attention of the public is in-  
vited to the half page ad of Mr. Jno.  
F. Kitchen, the South Main Street  
hardware dealer, which appeared  
in today's issue. Mr. Kitchen's  
business has increased so much pro-  
portionately that he has found it neces-  
sary to secure additional room in  
which to better display his line of  
chairs and has accordingly opened up  
one of his stores in the Owership  
and Longview areas, three doors south of  
his original furniture store. Come and  
see him when putting fine goods in  
his line. He has a magnificent stock,  
all the latest in furniture.

### BEVERLY NOTES.

A Newsy Letter From South Christian—Reception Weddings and Social Events.

BEVERLY, Nov. 17.—Our little vil-  
lage has been very prompt in fur-  
nishing news here of late, so now as  
we have quite a great many things of  
interest we come again.

On last Tuesday there was an el-  
egant reception at the home of Mr.  
and Mrs. Wheeler Cayce in honor of  
Mr. Bar Harlow and bride. About

ten o'clock the guests were invited in  
to the dining hall, where an elegant  
supper of five courses was served.

We wish the young couple many years of happiness.

On Wednesday night, the young  
gentlemen of the neighborhood ser-  
enaded the young couple. The music was  
lovely. On awakening 't was sweet  
dreams one would have fancied the  
angels were hovering round, striking  
gently the harp and lyre.

The meeting at Locust Grove

church closed last Tuesday night.

It was a delightful meeting.

Bro. Givens is indeed a splendid man,

and won the hearts of our good people.

Bots, what Ben do now? You  
should offer "your sympathy and love  
in this, his trying hour."

The scarlet fever scare is about over

now. All of the cases are out of dan-  
ger.

The weather is cool and pleasant.

Misses Mary Lou and Bassie Ken-  
ner will go to Trenton on a visit in  
a few days. We hope for them a pleasant

visit.

On Thanksgiving day, at Locust

Grove church, one of the Longview

boys and one of our most charming  
young ladies will be made one.

From what Madame Rumor says, an-

other wedding will soon be held in

this immediate neighborhood.

Misses Armstrong and Huffman

stayed long enough in our midst to  
take away several hearts. We guess

some of the boys will be following  
Bur's example.

Ask "Nix" where last he saw the

moon, and how he came to know so

much about the "case." Mind, young

man, how you "haunt" the bridge  
hereafter.

The flowerers of the vicinity are

coming to the front. Watch out

boys, you will lose the prize yet.

### PURELY PERSONAL PARAGRAPHS.

What Some of the Press Boys Say About  
Our New Shape.

The Hopkinsville KENTUCKIAN now  
makes its appearance in a new, eight  
page form and is printed in a new  
building and on a new press. The  
KENTUCKIAN is evidently prosperous  
and it would not be surprising if it  
should blossom into a first class daily  
in the near future—Paduch News.

The Hopkinsville KENTUCKIAN has  
enlarged to a six column quarto and  
other improved. Bro. Meacham  
has just completed a handsome one  
for his plant and given other  
evidences that he is a blotted bond  
holder, requiring two men to clip his  
coupons. We hope that in his pros-  
perity he will not forget that we was  
once like us a poor poverty stricken  
country editor—Interior Journal.

The Hopkinsville KENTUCKIAN ap-  
peared in eight-page form last Fri-  
day. Its advertising patronage is  
enough to make the average news-  
paper man's mouth water, and it is a  
better paper in many respects than  
ever before. Editor Meacham, like  
Adolpho's kindness fixed her fortunes.  
From the beginning of advertising great  
success has followed the slogan "The  
Occasional Marriages" which she has  
risen to almost the level of Bernhardt  
in Parisian estimation and commands  
a nice social position as well.

### Something About a Great French Actress.

Mlle. Gabrielle Rejane, of whom one  
hears so much nowadays, is one of the  
few women who has triumphed over  
public projects against an actress  
with her face. She is Sophie Bernhardt  
and the Baroness de Rothschild  
helped to make Rejane famous. The  
well born, well brought up Mile. Rejane  
did not take her audiences by storm at  
her debut. In fact, she performed  
away from her profession in most  
delightful style after overcoming  
her mother's opposition. She did not  
after changing her name to Rejane to  
suit that prejudice. Mme. Bernhardt  
quietly quarreled with her in Genoa, simply  
because Damala admired her talents,  
sprung her fame and the Baroness Adolpho's  
kindness fixed her fortune. From the  
beginning of advertising great  
success has followed the slogan "The  
Occasional Marriages" which she has  
risen to almost the level of Bernhardt  
in Parisian estimation and commands

From the beginning of advertising great  
success has followed the slogan "The  
Occasional Marriages" which she has  
risen to almost the level of Bernhardt  
in Parisian estimation and commands  
a nice social position as well.
